PARALLEL SLIDE-OUT SHELF KIT

The Kessick Parallel Slide-Out Shelf Kit is the ideal way to store wine bottles in a label forward, easy to access format. The Kit has been engineered to fit most cabinet application including frameless, face-frame with a variety of hinge types.

Complete Parallel Slide-Out Kit Includes:

Parallel bars can be cut to fit. 27" & 41" bars available.

Wood Brackets pre-drilled for rods, includes screws.

Drawer slides full extension side mount.

Spacer blocks slide-to-cabinet installation.

Parallel is a Kessick product that consists of a unique black anodized aluminum extrusion with a proprietary center spline. This allows the user to cut the bars at any length and secure them to the bracket utilizing the supplied screws without any inserts or tapping. The Parallel Slide-out Shelf Kit to be customized to fit any cabinet interior space.

OEM hardware components to create wine storage in casework

WINE HARDWARE MODEL K21B

The Kessick Wine Hardware is a premium quality decorative hardware product designed to display and store wine on a vertical surface such as a wall, casework, backbar, kitchen backsplash and more.

The Kessick Wine Hardware displays wine in a label forward format, the orientation of the wine bottle tilted optimally to maintain constant contact between the wine and the cork. Patent Pending.

Reversible arms
change direction
of bottle

Constructed
of black anodized
aluminum

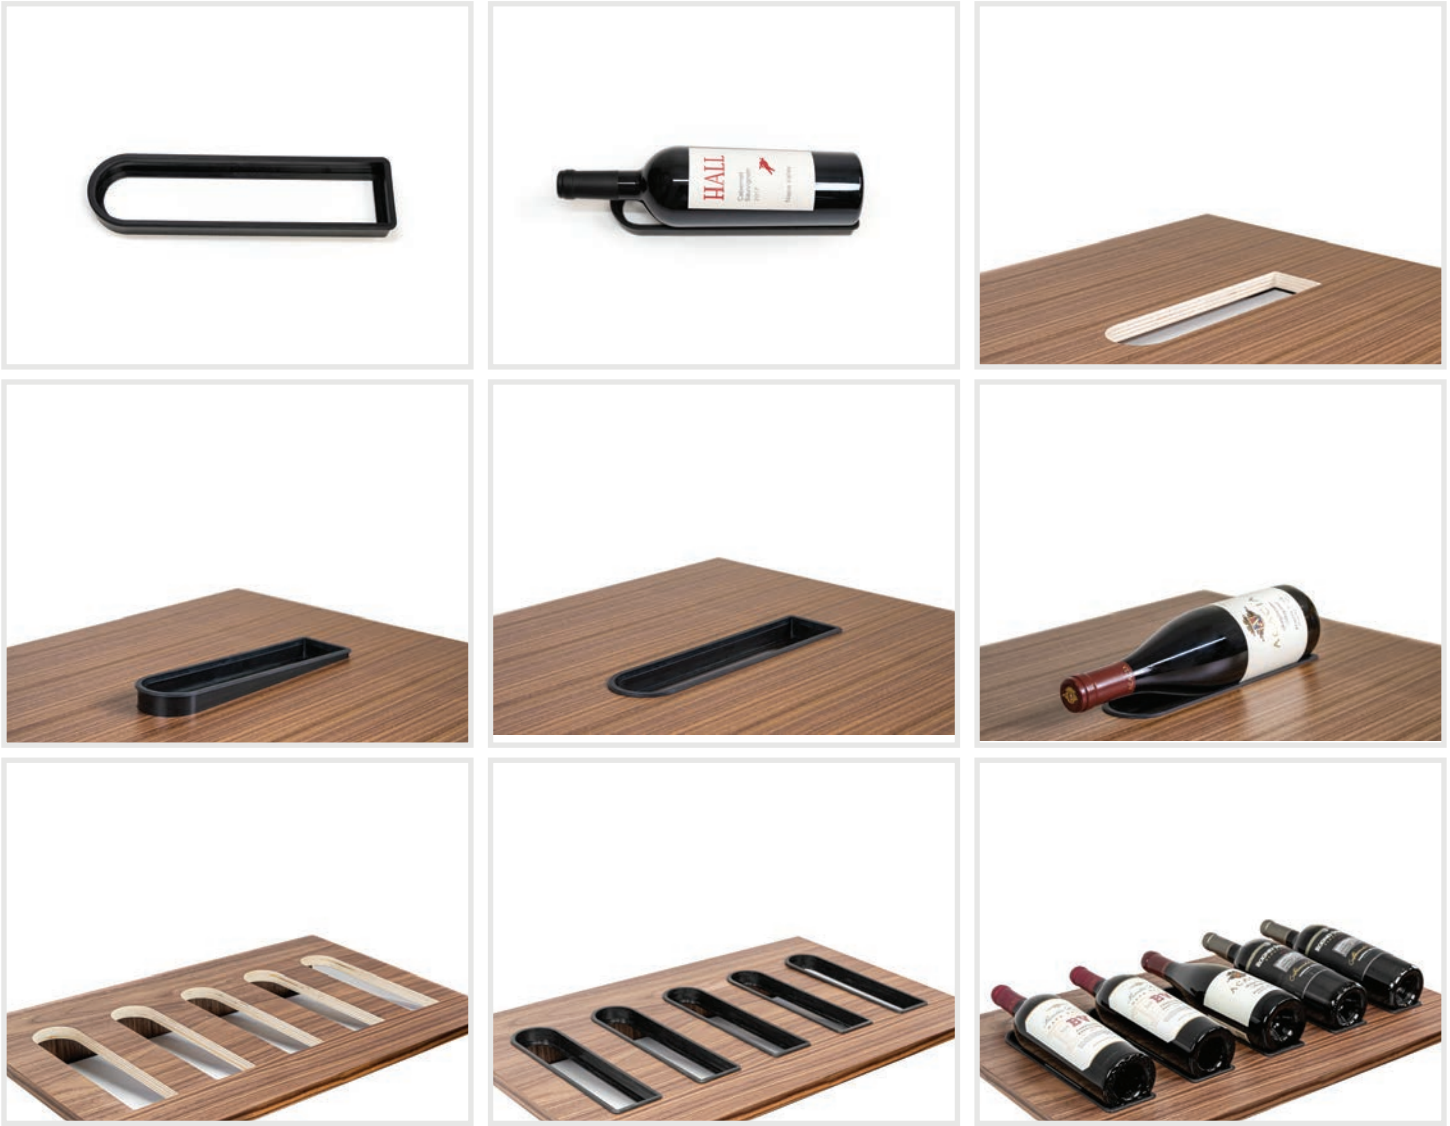

Rubber O-ring
& cushions
wine bottle

Residential, retail
& hospitality
applications

The Kessick Wine Hardware can be secured to any vertical substrate with the use of taper screw holes that are strategically located behind the wine bottle.

WINE BOTTLE GROMMET HARDWARE

The Kessick Wine Bottle Grommet is designed to fit into a specifically cut hole in any $\frac{3}{4}$ " wood panel or substrate for the purpose of securely storing and displaying 750 ml wine shaped bottles.

Applications Include:

Professional design
of unique wine
storage and display

Slide-out &
fixed shelves
for cabinetry

Integration into
retail store fixture
displays

DIY wine storage
and display
for residential

The proprietary and exclusive design features of the patent pending wine grommet are based on our two-step manufacturing process. A rigid body in the unique shape of a 750ml wine bottle is bonded to a soft silicone rubber top flange that grips and cushions the wine bottle.

ABOUT US

Kessick Wine Storage Systems is a family business founded in 2004. As designers and manufacturers of custom wine cellars, we continually develop new products that display wine in both practical and interesting ways. Our Hardware Series Catalog is a culmination of wine storage accessories available to the cabinet designer and builder to create new wine storage and wine display opportunities.
