

Estate is a line of fully assembled wine cabinetry with a comprehensive selection of wine storage and wine display options.

Frameless box construction combines metal and wood components for a range of design styles from traditional to contemporary. Assembled cabinets are integrated with install rails, base platforms and optional backs to enable a simplified cabinet installation process.

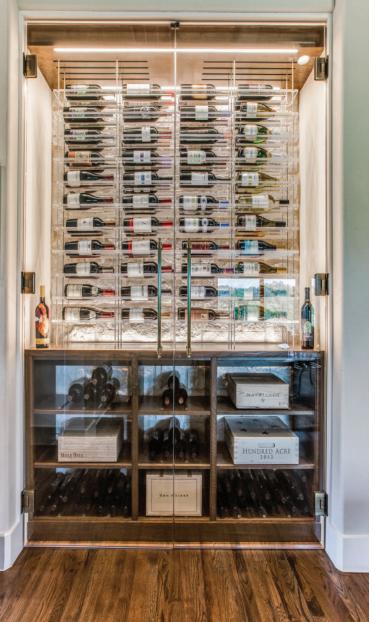

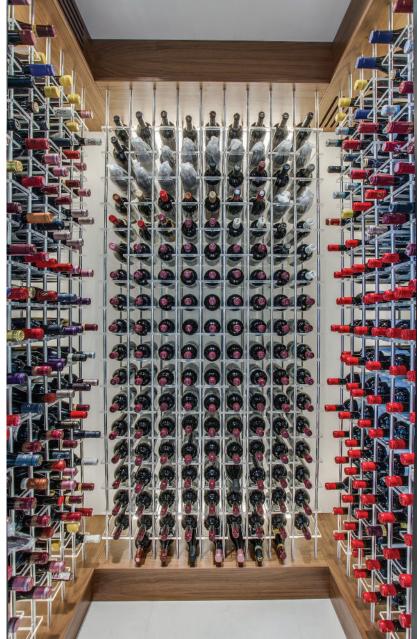

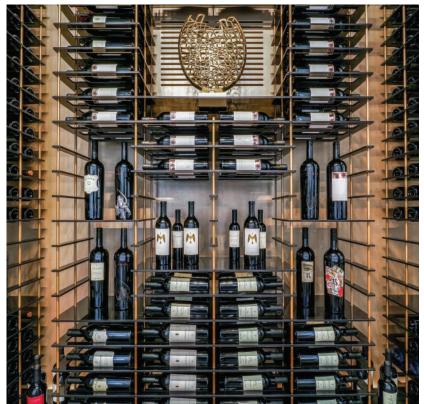

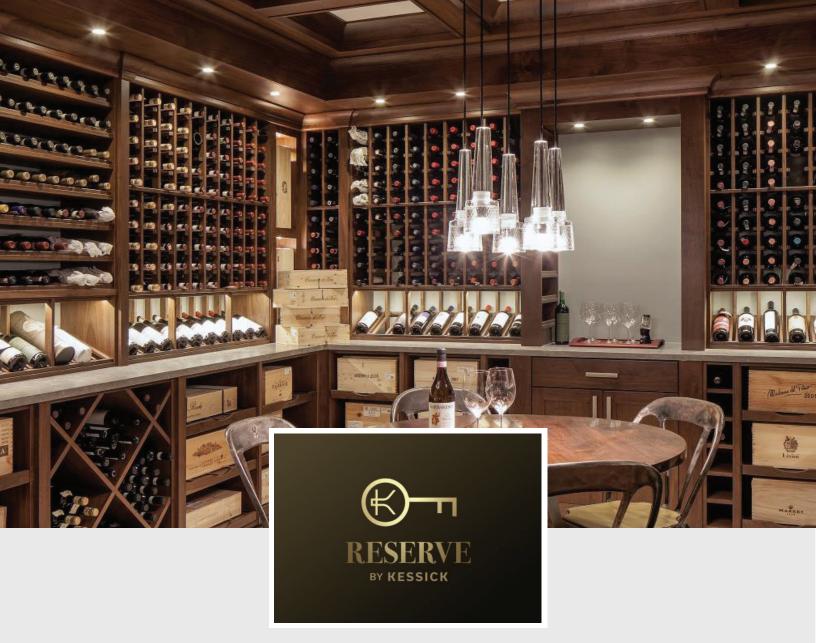

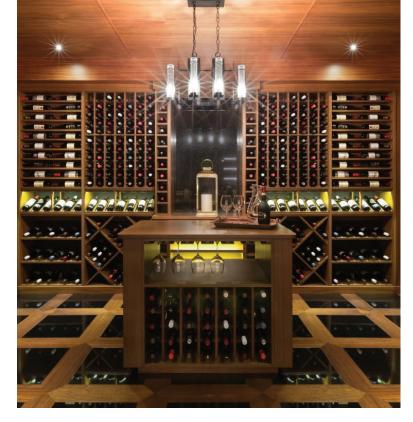

Elevation is a uniquely contemporary presentation of wine—A Kessick Original—Metal rods support acrylic wine cradles creating a floating effect.

Elevate includes both neck out and label forward design elements and can incorporate casework and LED display lighting.

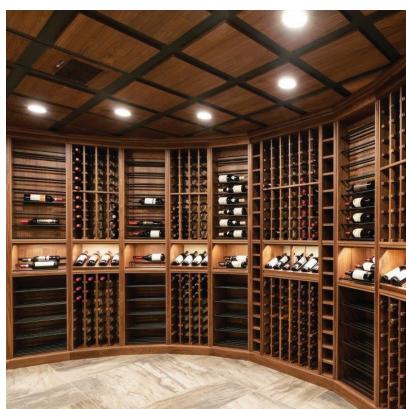

Reserve is the finest example of custom furniture grade wine storage and wine cabinetry available.

Attention to every detail is represented in both the wine cabinets and architectural room design. These include custom entry doors, library ladders, coffered ceilings, paneled walls and more.

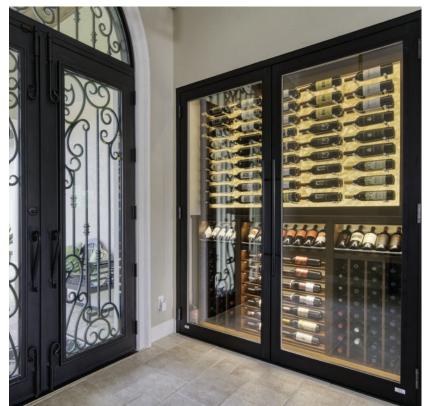

Wine As Art is a wall-mounted wine display system that focuses attention on the wine rather than the display. Wine is visually interesting and Wine As Art hardware displays and stores wine with emphasis on the bottle.

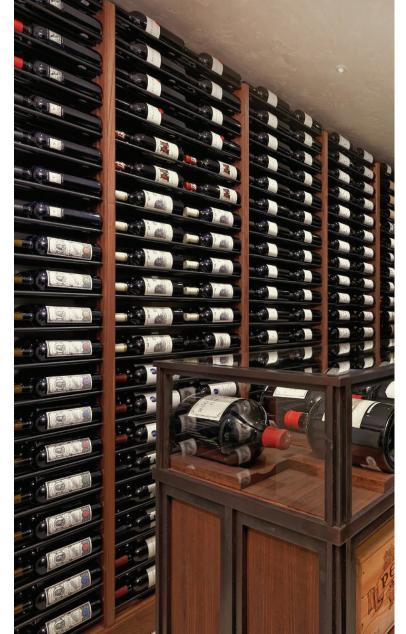

Wine As Art is designed to be an artistic, creative focal point that combines metal and modern finishes to display wine with an aesthetic focus.

Parallel Wine Storage is an elegant, transitional wine storage and display system that showcases wine on parallel metal bars for maximum label view.

Parallel allows the wine to be the center of the room design while maintaining air circulation, easy access, proper horizontal storage and visual wine label display.

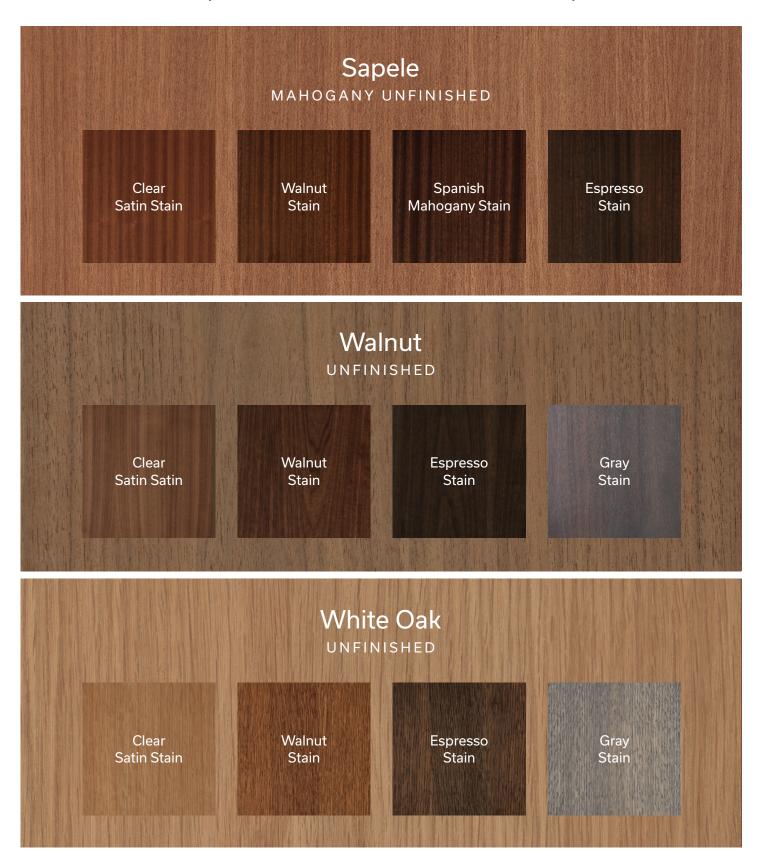

Kessick Tower Series is a system of wine racking designed in a vertical column format creating a wide variety of wine storage options. Each tower is thoughtfully engineered to accommodate almost any wine storage.

This series was developed from Kessick's legacy, Estate Series to provide the same level of quality at a lower price and shorter shipping times. By standardizing the Towers, we bypass our design, engineering, programming and custom millworks departments and pass those cost savings on to you.

Choose a single unit or combine with additional towers to create your own unique design.

Wood & Stain Selection

Hand-wiped Stains with Two Clear Satin Finish Topcoats

Hardware Finishes

Available in Three Finishes

Other Materials

Brillante' Collection

Brillante' architectural panels are high gloss lacquer finished .75" European cabinet substrates. They are ideal for casework and wall panels for Kessick contemporary wine storage systems such as Elevation, Parallel and Wine As Art.
