

# Where Function Meets FORMA

FORMA WINE ENCLOSURES are free-standing, insulated furniture pieces designed to help you properly protect and showcase your wine collection in a controlled environment. Designed to perform beautifully in residential and hospitality settings.

Choose from traditional, transitional, and modern styles in three available widths: single, double, or triple door. Elegant wood single-light doors, sleek steel-frame doors, or rich Renaissance bronze doors are available to complement your space. Multiple racking configurations help to perfectly display your collection.

With a minimal 23" depth and standard 8' or 9' height, Forma delivers maximum storage in a compact footprint. Each unit ships as fully assembled components and features a thoughtful, straightforward site-assembly process. Refrigeration-ready to accommodate multiple systems (unit not included).

No demolition. No permits. No room construction.

## Forma Wine Enclosure Disclaimer

Forma™ Wine Enclosures are designed to recreate the ideal conditions of a traditional wine cellar. Forma was developed to provide a stable environment for both balanced temperature and humidity to properly store, protect, and elevate your wine experience.

While temperature settings can be adjusted slightly for serving preferences, Forma is not intended to operate as a standard refrigerator or rapid-chill appliance. Lower set points, such as typical refrigeration temperatures, fall outside the intended use and may impact system performance.
