

**FORMA**  
BY KESSICK

#### Forma Wine Enclosure Disclaimer

Forma™ Wine Enclosures are designed to recreate the ideal conditions of a traditional wine cellar. Forma was developed to provide a stable environment for both balanced temperature and humidity to properly store, protect, and elevate your wine experience. While temperature settings can be adjusted slightly for serving preferences, Forma is not intended to operate as a standard refrigerator or rapid-chill appliance. Lower set points under fifty-five degrees, such as typical refrigeration temperatures, fall outside the intended use and may impact system performance.

#### PRODUCT CUT SHEET

## The Future of Wine Storage

Forma is a freestanding, furniture-grade wine enclosure engineered to store and present wine within a precisely controlled environment. It brings together the performance of a true wine cellar with the presence of a finely crafted piece of furniture — delivering the essential conditions of a traditional wine cellar without the demands typically associated with building. Designed and manufactured in Greenville, South Carolina, Forma is a direct extension of the craftsmanship and engineering that has defined Kessick for more than 20 years.

#### The Forma Solution

- Installation completed in 1–2 days rather than weeks
- Functions as either a freestanding piece or a built-in element
- Suited for residential and hospitality environments
- Delivered in precision-built, flat-packed components for ease of access and installation

#### Specifications

|                   |                                                                             |
|-------------------|-----------------------------------------------------------------------------|
| Configurations    | One-door (35" W) · Two-door (64" W) · Three-door (93" W)                    |
| Standard Heights  | 8 feet · 9 feet                                                             |
| Depth             | 23 inches                                                                   |
| Capacity          | Approx. 110–130 bottles per door, depending on racking system               |
| Door Styles       | Wood · Steel · Bronze (produced in collaboration with Renaissance)          |
| Wood Species      | American Black Walnut · Sapele Mahogany · Rift Sawn White Oak               |
| Interior Racking  | Estate 1 · Estate 2 · Estate 3 · Somm · Elevation · Wine As Art             |
| Hardware Finishes | Black · Silver · Gold                                                       |
| Lighting          | Dimmable linear LED, 2700K–6000K tunable, remote controlled                 |
| Refrigeration     | Kessick-supplied (120V, plug-and-play) or dealer-sourced compatible systems |
| Installation      | Flat-packed, precision-built components; assembled on-site in 1–2 days      |
| Construction      | Kessick proprietary Structural Insulated Panel (SIP) system                 |

## Materials & Finishes

Furniture-grade hardwoods — American Black Walnut, Rift Sawn White Oak, and Sapele Mahogany — are available in a curated range of stains, from Unfinished and Clear to Whitewash, Espresso, and Black Stain, depending on species. Interior surfaces are offered in unfinished or clear finishes to complement the exterior composition.

## Interior Racking

- Estate — a comprehensive cabinetry system spanning individual columns, display rows, rectangle bins, and chevron shelving, in three configurations (Estate 1, 2, 3).
  - Somm — concave-profiled vertical supports offering clarity and architectural detail.
  - Elevation — metal rods supporting acrylic cradles for a floating presentation.
  - Wine As Art — bottles presented as individual visual elements with modern metal hardware.
- A return side glass vision panel is available on Wine As Art, Elevation, and Somm configurations.*

## Performance

- Airtight, insulated construction on Kessick's proprietary SIP system
- Optimized temperature and humidity control; quiet, balanced airflow
- Compatible with self-contained and ducted refrigeration systems
- Not intended to function as a standard refrigerator or rapid-chill appliance; set points below 55°F fall outside intended use

## 5-Year Limited Warranty

Every Forma enclosure is backed by Kessick's 5-Year Limited Warranty, covering the cabinet, enclosure, millwork, structural components, doors, insulated glass units, operating hardware, and factory-applied finishes against defects in materials and workmanship under normal use — for five years from the original date of delivery. Coverage applies to the original owner when the product is purchased through an authorized Kessick dealer and installed, operated, and maintained per Kessick's written specifications.

### What It Covers

- Cabinet, enclosure, and millwork construction
- Structural components, doors, and insulated glass units
- Operating hardware and Kessick-installed functional components
- Factory-applied finishes

### Good to Know

- Refrigeration, cooling, humidification, and climate-control units are warranted separately by their manufacturer (e.g., CellarPro, Wine Guardian) not by Kessick — even when supplied with the Forma unit
- Coverage excludes damage from improper installation, unauthorized modification, misuse or lack of maintenance, environmental exposure, shipping damage not caused by Kessick, and normal wear, wood movement, or finish patina over time
- This warranty is non-transferable and extends to the original owner only
- Remedy is limited to Kessick's repair or replacement of the covered component, at Kessick's discretion

*This is a summary for reference. Complete terms, exclusions, and claims procedures are set out in the full Kessick Forma™ Limited Warranty, available from your Kessick dealer or by contacting Kessick directly.*
